

# Why When Love Is Gone

The Isley Brothers

When Love Is Calling  
When love is calling, listen  
Her voice is your command  
When love is calling, listen  
Greet her with heart in hand  
When love is calling, listen  
This is your only chance  
To fill your life with pleasure  
It could be now or never

When love is calling  
It will come to you softly  
Like a flower in a stream  
When love is calling  
The scenery changes  
To a story from a dream  
When love is calling  
It will tell you  
How to find me, where I am honey  
In this crazy world of promises broken  
In this crazy world of strange desire

When love is calling

So follow your heart  
And come back to the one, who loves you  
So follow your heart  
Our dreams are written in the stars above you  
So follow your heart  
I will fill all your days with love  
So follow your heart  
I will give you all I have

When love is calling  
You turn away from her  
And you try hard to resist  
When love is calling  
Try to remember  
Nothing's stronger than a kiss  
When love is calling  
It will tell you  
How to find me, where I am honey  
In this crazy world of promises broken  
In this crazy world of strange desire
