

# Come And Get It (Love's On The Fire)

The Jackson 5

After school when I walked down your street  
I could start to feel the sun washing beneath my feet  
Although you're not here I feel your love is near  
Won't you come outside

I don't have enough time to play hide and seek  
And I can't wait for the midnight hour  
Why don't you try something new before it gets old  
Don't let it get cold

Come and get it, come and get it  
Love's on the fire  
Burning for you, yearning for you  
You're my desire  
Come and get it, come and get it  
My heart's on fire  
Burning for you, yearning for you  
You're my desire

Just one kiss you put upon my lips  
I felt it tingle right down to my fingertips  
I'm at the point of no return  
I can't believe that fire that you started burning

I don't have enough time to play hide and seek (I don't have time to play cause)  
And I can't wait for the midnight hour (hour)  
Why don't you try something new before it gets old  
Don't let it get cold

Come and get it, come and get it  
Love's on the fire  
Burning for you, yearning for you  
You're my desire  
Come and get it, come and get it  
My heart's on fire  
Burning for you, yearning for you  
Feel this desire

Oh, yeah (I got red hot loving)  
Oh, yeah (Cookin' in the oven)  
Oh, yeah (all I do, all I do, all I do ... yes I do)

I don't have enough time to play hide and seek  
And I can't wait for the midnight hour  
Why don't you try something new before it gets old  
Don't let it get cold

Come and get it, come and get it  
Love's on the fire  
Burning for you, yearning for you  
You're my desire  
Come and get it, come and get it  
My heart's on fire, I'm on a fire  
Burning for you, yearning for you  
You're my desire

Come and get it...
