

# Our Love

The Jackson 5

When everybody shouts aloud and no one gets along  
I wish the whole wide world could see you and me  
You and I first met before we sang two different songs  
But we've been here together to make one melody

That's why our love (our love) is showing us the way to salvation  
I know we're getting closer  
Our love (our love) helps us through the bad times  
So we can see the sunshine together (forever)

The love we have between us is the power we possess  
I wish the whole wide world could see you and me  
We give a little, take a little, but take a little less  
And anything is possible with you right here beside me

That's why our love (our love) is showing us the way to salvation  
I know we're getting closer  
Our love (our love) helps us through the bad times  
So we can see the sunshine together (forever)

Boom-di-li-doom, I love you  
Boom-di-di-doom

Boom-di-li-doom, I love you  
Boom-di-di-doom  
Shine

Every day is so beautiful filled with different things for us to do  
(Shine, shine in)  
But you know girl, I couldn't have done it without you  
(Shine, shine in)  
I wish the whole wide world (shine, shine in) could see you and me

If you feel it baby, take my hand, take my hand  
If you feel it baby, take my hand, take my hand  
Cause we keep growin', growin', growin'  
We'll keep stronger, showin'  
Our love gets along

Let it grow, let it grow, let it grow, grow, grow  
Let it shine, let it shine  
Let it shine cause it's a party

Baby, our love (our love) is showing us the way to salvation  
I know we're getting closer  
Our love (our love) helps us through the bad times  
So we can see the sunshine together (forever)

Oh, oh, oh, our love (our love)  
Baby, salvation (determination)  
Baby, our love (our love) helps us through the bad time  
So we can see the sunshine together (forever)
