

Simian Split

The Jesus and Mary Chain

I killed Kurt Cobain
I put the shot right through his brain
And his wife gave me the job
'Cause I'm a big, fat, lying slob

And the kid just let me in
With a big, wide, goofy grin
And we shared some heat
And then that kid was meat

Peace and love, no matter how it comes
Understanding, no matter how it comes
Cheese and wine and it ain't my game
Gold, coke and it ain't my game

Shit that high, shit that low
See that kiss, Judas kiss
Judas skin
Good idea

Skateboard and [?]
Steve says like the kid on the cross

Don't bloom and ain't it a gas?
Could I tell? Could I see?
Kissing some, kissing sand
Set sail, can't get any land

Pet jail is life in a band
Good idea, good idea
Love's last fame
Judas skin
