The Knack

Who wants it who dares  
Why bother oh yeah  
You're eager you're square  
You're headed somewhere

Take a little off your backspin baby  
Just remember how to play and play to win  
Just like an uptown hope chest someone's throwing overboard  
Another downtown leftout living on the second floor  
You're still the same just rearranged  
Ambition it's guaranteed  
Ambition it's all you need

Taking nothing on the backend baby  
Just a smile and a knife will close the deal  
Just like an uptown hope chest someone's throwing overboard  
Another downtown leftout living on the second floor  
You're still the same just rearranged  
Ambition it's guaranteed  
Ambition it's all you need

I hear you knocking  
Are you for real  
Are you just shopping  
For a better deal

Who needs it who cares  
Why bother oh yeah  
You're bleeding you're scared  
You're speeding nowhere

Take a little off your backspin baby  
Just remember how to play and play to win  
Just like an uptown hope chest someone's throwing overboard  
Another downtown leftout living on the second floor  
You're still the same just rearranged  
Ambition it's guaranteed  
Ambition it's all you need
