

## Just Wait And See

The Knack

I know she's yours now oh you'll find out  
If you should stumble she'll walk on  
She doesn't need you oh you sad fool  
Just turn your head and she'll be gone

Some girls will tell you anything  
For the things you bring  
Cars and diamond rings  
This girl will give you what you need  
But it's not guaranteed  
That she can be believed  
And now you tell me oh no not me  
But you'll find out just wait and see

It doesn't matter what you do  
She won't be there for you  
When she sees someone new  
And now you tell me oh no not me  
But you'll find out just wait and see
