

One Day at a Time

The Knack

Who you gonna run to when you're running low
Where you gonna run to -- no one ever knows
And there's a sadness in your style
An empty room behind your smile

One day one day at a time
One step each step of the way
Two hearts two hearts on the line
One heartbeat closer than yesterday

Darling I remember the girl you used to be
Innocent pretender and what you meant to me
Now where's the light behind your eyes
And where's the truth behind your lies

One day one day at a time
One step each step of the way
Two hearts two hearts on the line
One heartbeat closer than yesterday

You're chasing down the street, just like a drunken dancer
The taste is bittersweet, but
Love is the answer

One day one day at a time
One step each step of the way
Two hearts two hearts on the line
One heartbeat closer than yesterday

One step one step at a time
One day one day at a time
One step one step at a time
One day one day at a time
One step one step at a time
One day one day at a time
One step one step at a time
One day one day at a time
One step one step at a time
