

A Great Snake

The Lemon Twigs

When he looks right over here
I'm undone
I can't sit anymore

Telepathic drills
Turn in my mind when he looks me in the eye
Looks that really kill
He's all different kinds of people

Maybe
I'm a lonely mutant took off my helmet
Fell in love with you
Maybe

When he looks right over here
I see stars
My own legs start to fade

Maybe
I'm a vagrant hobo and I'm lookin' for Godot
Fell in love with you
Maybe

Is he even real?
Runs through my mind as he looks me in the eye
One more year until
Look there's another sequel

Ba da da da dum, dum, dum
Ba da da da dum, dum, dum, dee dum
Ba da da da dum, dum, dum
Ba da da da dum, dum, dum, dee dum
Ba da da da da

Ba da da da dum, dum, dum
Ba da da da dum, dum, dum, dee dum

Maybe
I'm a lonely planet and I found the man it seems I'm destined for
Maybe

Maybe
I'm a lonely gay man and I found a space man and I fell in love with you
Maybe

I'm not trying to take your sunshine
I'm not trying to steal you
I'm not trying to take your sunshine
I'm not trying to steal you
I'm not trying to take your sunshine
I'm not trying to steal you
I'm not trying to take your sunshine
I'm not trying to steal you
