

Intro

The Lemon Twigs

Tell me your wishes
And I will make you see

Make me your missus
And I will let you be

As long as you come home to me darlin'
You will see the light of day
And when I take the train to work in the morning
I'll only be a few hours away
(Come home babe, yeah, you come home baby you will miss me when
I'm gone)
(Come home, yeah, you got to come home because you'll miss me w
hen I'm gone)

(We have lives and then it's like "Here just forget all that")
