

## Soothe

The Lemon Twigs

I wanna soothe your name and lose its fall  
Don't wanna lose you now that I want it all, all

And when the end rolls around we'll be away  
Enough to find you standing still  
While the rest of the world keeps spinning like a top  
Stick around, we can make it if you stop  
Stop, stop

I'd like to show you what I'm looking for  
I'd love to know you just how I need it

And when the end rolls around we'll be away  
Enough to find you standing still  
While the rest of the world keeps spinning like a top  
Stick around, we can make it if you stop  
Stop, stop

And when the end rolls around we'll be away  
Enough to find you standing still  
While the rest of the world keeps spinning like a top  
Stick around, we can make it if you stop  
Stop, stop
