

Get It Right

The Lightning Seeds

If this is the life, if this is the way it is meant to be
How happy am I, how happy am I supposed to be?
Looking for something deep inside
Why is the truth so hard to find
Whatever gets you through this life, get it right

Call it a day, call me and say it's better
Out of the way, into a new whatever now
Hoping to float above it all
Hoping that someone breaks my fall
Whatever gets you through this life, get it right

Ups and downs can turn around
All the ins and outs are roundabouts
Maybe skies are clear but no-ones here to notice me
Lie awake on your own each night
See yourself in a different light
In a tangle you just can't unwind
And feelings you can't describe

Hoping to float above it all
Hoping that someone breaks my fall
Whatever gets you through this life, get it right
