

Have They Forgotten

The Living End

One soul
One life
One soul, One life, One meaning

One soul, one life, one meaning
As far as we know
So why the hell should we be grieving?
I don't know
A house without no hope

They say theres nothing we can do
Just stand back
But while the government comforts you
And say lets be patient
One more cell becomes vacant

Have they forgotten what it's all about
Sometimes I wonder, can't work it out
An equation with no answer
Have they forgotten, what it's all about

They say theres nothing we can do
Just stand back
But while the government comforts you
And say lets be patient
One more cell becomes vacant

Have they forgotten what it's all about
Sometimes I wonder, can't work it out
An equation with no answer
Have they forgotten, what it's all about

Too many times, we don't react
Too many things, oh that's just crap
And if you cannot see, the effect it has on me...
YOU'RE BLIND!

Have they forgotten what it's all about
Sometimes I wonder, can't work it out
An equation with no answer
Have they forgotten, what it's all about
