

## Just Like You

The Locust

There wasn't room  
Inside that smoke-filled room  
You were beside yourself  
Not beside me  
You've caught up  
You believe that you've grown up  
We know you thought that up, needless to say  
You had your way, king for a day  
You always see that you have your way  
I'd suggest  
If they were to be impressed  
And see you at your best  
It would be without me  
But you never knew  
What I could be without you  
What I could ever do  
Without you  
Without you  
I'd start anew  
I'd take control  
I could be just like you...
