

# Don't Come Down

The Maine

Here's to now  
And nothing else  
In the crowd  
All by yourself

To the lows and every high  
The hellos and the goodbyes  
In this moment, I could die  
With you  
Never felt like this feel before  
Dizzy, drunk, and beautiful  
In this moment, I let go  
With you

When you are next to me and the music's loud  
Singing 'Hey Nineteen' somewhere in the crowd  
We are up so high  
They can't touch us now  
We are thousands of feet from the ground  
And won't come down  
We won't come down

Yeah, here's to all  
To all this culture's rules and your pretty things  
How dirty, wild, blurry, juvenile  
We ain't got no time for what tomorrow brings

And the choir sings  
To all the lows and every high  
The hellos and the goodbyes  
In this moment, I could die  
With you

When you are next to me and the music is loud  
Singing 'Hey Nineteen' somewhere in the crowd  
We are up so high  
They can't touch us now  
We are thousands of feet from the ground  
And won't come down  
We won't come down

Here's to now  
And to nothin' else  
In the crowd  
All by yourself  
To the lows and every high  
The hellos and the goodbyes  
In this moment, I could die  
With you  
Yeah, right here with you!

And when you are next to me and the music is loud  
Singing 'Hey Nineteen' somewhere in the crowd  
Yeah, we're up so high  
They can't touch us now  
We are thousands of feet from the ground  
Yeah, we're never going down

To the lows and every high  
The hellos and the goodbyes  
In this moment, I could die  
With you  
And we're never going down  
Never felt like this feel before  
Dizzy, drunk, and beautiful  
In this moment, I let go  
With you
