

La La La Wish Upon A Star

The Manhattans

Tra la la la la la wish upon a star
Maybe your dreams will all come true
Maybe she'll fall in love with you
Tra la la la la la wish upon a star
I just close my eyes and there you are
(There you are)

When I look back in my mind
I remember when I was small (I was small)
Wished upon a star and that was all (that was all)
I had to do
To make this dream come true

Now in my head all the time
Is the song that I used to sing (used to sing)
Listen to the tune and how it brings (how it brings)
Each note so true
I'll sing my song, I sing my song for you

Tra la la la la la wish upon a star
Maybe your dreams will all come true
Maybe she'll fall in love with you
Tra la la la la la wish upon a star
I just close my eyes and there you are
(There you are)

Your face is all that I see
Late at night when I fall asleep (fall asleep)
There I am with you and you with me (with me)
All through the day
I fantasize this way

One day you'll know how I feel
Turn around and you'll see me there (see me there)
Someone who loves you and really cares (really cares)
But until then
I'll sing my song, I sing my song again

Tra la la la la la wish upon a star
Maybe your dreams will all come true
Maybe she'll fall in love with you
Tra la la la la la wish upon a star
I just close my eyes and there you are
(There you are)

There you are, there you are (there you are)
There you are, there you are, ah (there you are)

Starlight, star bright
First star I've seen tonight
I wish I may, I wish I might
Have a wish
