Change Is Gonna Come

The Marshall Tucker Band

There was a time I dreamed about money Was a day I feared growing old Many times have come When I'm thinking 'bout you, honey And if you leave me girl I got nowhere to go

Cause I know, yes, I know A change is gonna come someday

Do you remember a long, long time ago You would follow me All the time And everywhere I go?

Now I find myself a pot of gold Living on another name And what I got to know Is it still the same?

Cause I know, yes, I know A change is gonna come someday
