

My Best Friend

The Marshall Tucker Band

They say time is gonna pull two people apart
Look for a new life and another place to start
No, not me, and I think that they're all wrong
And I like singin' the same old song

I know things, they been mighty rough on you
Livin' with me and the things I get into
No matter what they say, yes, I know my needs
And you're the only one for me

I think it's happenin' to me again
(Fallin' in love with my best friend)

There's been times that I didn't know what to do
There's been times that I didn't think I'd make it through
Just look into my eyes, please, once again
Maybe this time you'll see me as a friend

I think it's happenin' to me again
(Fallin' in love with my best friend)

And if you're lonely while I'm away
Just think of me, I'm hurtin' the same way
There's only one way to stop the pain, you see
(And that's feelin' your body layin' next to me)

I think it's happenin' to me again
(Fallin' in love with my best friend)

(Fallin' in love with my best friend)
(Fallin' in love with my best friend)
(Fallin' in love with my best friend)
(Fallin' in love with my best friend)
(Fallin' in love with my best friend)
(Fallin' in love with my best friend)
(Fallin' in love with my best friend)
(Fallin' in love with my best friend)

(Fallin' in love with my best friend)
(Fallin' in love with my best friend)
