

I Need Someone

The Marvelettes

I need someone to tell me they love me
Someone who'll always think of me
Someone that wraps sweet love around me
Tender love that can surround me

I've been saving all of my love
For someone who's worthy of
A girl whose heart is overflowing
With a love that's always growing

Each night I hope and pray
That sweet love will come my way
Hopefully, I'm anticipating
Like a child, I'm giggly waiting

For someone to love and guide me
Someone who'll stand beside me
Hold me in my darkest hour
And treat me like a sweet sunflower
Ooh, someone
Ooh, someone

So I'll be searchin' everyday
Always try to find a way
To satisfy this heart of mine
And I'll keep on looking 'til I find

Someone who'll always need me
Someone who'll never leave me
When I'm gone who'll worry about me
Miss me, can't do without me

Someone to talk to me
I need someone who'll make me happy
Someone who wraps sweet love around me
Tender love that can surround me

Someone who'll love and write me
Someone who'll stand beside me
Someone who'll always need me
Someone who'll never leave me

Someone to miss me, baby
Someone who'll kiss me, baby
Someone to come to me
