

# One More for the Road

The Milk Carton Kids

Oh, just one more for the road  
Oh, just one more for the road  
This world can be so cold  
Before I let you go  
Just one more for the road

Oh, I've seen it coming slow  
Oh, I've seen it coming slow  
The whistle blowing low  
Our wishes push and pull  
Just one more for the road

Oh, the moon is barely full  
Oh, the moon is barely full  
Be still my heart and soul  
Our long lost rock and roll  
Just one more for the road

Oh, just one more for the road  
Oh, just one more for the road  
This world can be so cold  
Before I let you go  
Just one more for the road
