

# Blue World

The Moody Blues

Heart and soul took control  
Took control of me  
Paid my dues, spread the news  
Hands across the sea  
Put me down, turned me round  
Turned me round to see  
Marble halls, open doors  
Someone found the key

And it's only what you do  
That keeps coming back on you  
And it's only what you say  
That can give yourself away

Underground, sight and sound  
Human symphony  
Heard the voice, had no choice  
Needed to be free  
Fly me high, touch the sky  
Left the earth below  
Heard the line, saw the sign  
Knew which way to go

'Cause it's easier to try  
Than to prove it can't be done  
And it's easier to stay  
Than to turn around and run

It's a blue world  
It takes somebody to help somebody  
Oh, it's a blue world  
It's a new world  
It needs somebody to love somebody  
Oh, it's a blue world

Heart and soul took control  
Took control of me  
Paid my dues, spread the news  
Hands across the sea  
Put me down, turned me round  
Turned me round to see  
Marble halls, open doors  
Someone found the key

'Cause it's easier to try  
Than to prove it can't be done  
And it's easier to stay  
Than to turn around and run

It's a blue world  
It takes somebody to help somebody  
Oh it's a blue world  
It's a new world  
It needs somebody to love somebody  
Oh it's a blue world  
It's a blue world  
It takes somebody to help somebody

Oh it's a blue world  
It's a new world  
It needs somebody to love somebody  
Oh it's a blue world
