

## Island

## The Moody Blues

Are you hearing that lonely laughter  
As the lights go out on you?  
Are you getting that sinking feeling  
As the truth slips into view

But if you care, don't run away  
Your freedom's inside your head  
That's what we said

Are you sitting on a tiny island  
As the tide rolls in on you?  
Are you getting that sinking feeling  
As it all comes home to you?

Picture the wings that take you home

Home to the love you need  
That's what you need

Are you hearing that lonely laughter  
As the lights go out on you?  
Are you getting that sinking feeling  
It all comes home to you?

But if you care, don't run away  
Your freedom's inside your head  
That's what we said  
That's what we said
