

## Life's Not Life

The Moody Blues

Every ray of light  
Now reminds me of the day  
How come you went away  
So suddenly

It's kinda like you planned  
To run and hide from me  
Now life's not life no more  
Time to think it over  
You were just a lover  
You're much more than that now  
And now I fell  
In such a state of feeling down

And life's not life no more  
Life's not life  
No, life's not life no more  
I've slipped up for sure  
I slipped up  
But not enough to fall  
Life's not life no more  
I've slipped up for sure  
I slipped over  
Now I'm felling sore  
Life's not life no more.
