

# Never Comes the Day

The Moody Blues

Work away today  
Work away tomorrow  
Never comes the day  
For my love and me  
I feel her gently sighing  
As the evening slips away

If only you knew what's inside of me now  
You wouldn't want to know me, somehow  
But you will love me tonight  
We alone will be all right  
In the end

Give just a little bit more  
Take a little bit less  
From each other tonight  
Admit what you're feeling  
And see what's in front of you  
It's never out of your sight  
You know it's true  
We all know that it's true

Work away today  
Think about tomorrow  
Never comes the day  
For my love and me  
I feel her gently sighing  
As the evening slips away

If only you knew what's inside of me now  
You wouldn't want to know me, somehow  
But you will love me tonight  
We alone will be all right  
In the end

Give just a little bit more  
Take a little bit less  
From each other tonight  
Admit what you're feeling  
And see what's in front of you  
It's never out of your sight  
You know it's true  
We all know that it's true
