

Simple Game

The Moody Blues

As time goes by you will see
That we're going to be free
You and me, we'll touch the sky
Can you see in your mind's eye
That we are one
We're all the same
There, by your side, I will be
And life is just a simple game
When this crazy world is free
When it finds out
Exactly what we're meant to be
Free from doubt
That we are one
We're all the same
And life is just a simple game
Thoughts of another day
Flashing through my head
Thinking how life could be
All of the things that our great men have said
What we are meant to be
Be what we want to be
What we deserve to be
As time goes by, you will see
That we're going to be free
Can you see in your mind's eye
You and me, we'll touch the sky
We're all the same
That we are one
And life is just a simple game
We're gonna be free
Oohhh, gonna be free
Gonna be free
(Free, gonna be free, gonna be free, Oohhh)
