

So Deep Within You

The Moody Blues

Talk to me baby
I want to sleep at night
My heart is heavy
It's weighed down by the night
And now I'm lonely
I want to see the light
So deep within you

Cool wind is blowing
Through your crazy hair
Warm colours flowing
This feeling we have shared
And now I'm lonely
I want to feel the love
So deep within you

Your love's a never ending dream
A castle by a stream
Of sweet understanding
I know you're thinking of me, too
The messages from you
Are my inspiration

Love's incense lingers
It never fades away
Like you I'm waiting
For our special day
And now I'm lonely
I want to feel the love
So deep within you

My love is burning
Like a forest fire
My heart is yearning
I feel a warm desire
And now I'm lonely
I want to touch the fire
So deep within you
