

# **We Do It Different on the West Coast**

**The Mountain Goats**

The papers write about it back in England  
It's practically a lifestyle in Berlin  
There's probably some pockets in Ohio  
Almost always something happening in Ohio

I heard some bad reports about Long Island  
I don't trust what people say about Long Island  
I heard some good things from some friends about Chicago  
I gotta see with my own eyes about Chicago

We do it different on the west coast  
We do it different on the west coast  
We do it different on the west coast  
We do it different on the west coast

I heard they had a problem with some skinheads  
At a show in a machine shop in Pomona  
I feel like half my friends have moved to San Francisco  
I think I'm gonna bleach my hair this weekend  
And Dave went to New York - I don't care  
You can't shut people up once they get back from their Christmas out there

Skim through such magazines as I can get my hands on  
Glue circuit boards to plywood on the weekend  
Trellis modulation for the children  
There's a whole new world just up around the corner

We do it different on the west coast  
We do it different on the west coast  
We do it different on the west coast  
We do it different on the west coast
