

Don't Waste Another Day

The Muffs

Why can't you see, it was never meant to be
All this time is all a waste to me

It's gone nowhere, I see it in your eyes
All the lies and compromise to me

I see you talking and I never hear a word you say
There's something inside telling me
Don't waste another day, waste another day away

In all my life, I wanted someone who
Looked at me as if I were a queen

I see you talking and I never hear a word you say
There's something inside telling me
Don't waste another day, waste another day away

I see you talking and I never hear a word you say
There's something inside telling me
Don't waste another day, waste another day away
