

Boohoo

I heard what's happenin' lately, why I'm so down
But we're still happenin', baby, right here, right now
I heard what's happenin', why I'm so down
But we're still happenin', baby, right here, right now

You hate it when I overreact
I wish I didn't act like that
I always feel under attack
You keep telling me to relax
Doctor got me keepin' my cool (My cool)
I still don't wanna follow the rules
I already feel like a tool (A tool)
So tell me what you want me to do (Ooh-ooh, ooh-ooh)

Boohoo

I heard what's happenin' lately, why I'm so down
But we're still happenin', baby, right here, right now
I heard what's happenin', why I'm so down
But we're still happenin', baby, right here, right now

Call her Alexander 'cause I treat her like McQueen
Sleepin' in a palace livin' every girl's dream (Ooh-ooh, ooh-ooh)
She knows that she's magic, doesn't worry 'bout her status
Just as good as you imagine but it's so hard to believe
Shotgun ridin' with me, whip don't need no gasoline
YSL, gave her those shoes and I bought my Céline's, yeah
Anywhere I take her, everybody wants a piece
Look, I don't even blame 'em, that's my baby, she'll make anyone smile

Boohoo

I heard what's happenin' lately (Yeah), why I'm so down
But we're still happenin', baby, right here, right now (Right here, right now, right now)
I heard what's happenin' (I heard), why I'm so down (I'm so down)
We're still happenin', baby, right here, right now

Alright just go off right here
Okay (Ooh woah)
Ooh yeah, ayy, ayy, yeah ayy
