

Revenge

The Neighbourhood

I let you hit me off, mhm
I won't do that again
And I know it's wrong, mhm
But now I want some revenge
Coming for your heart
Every beat, when you sleep
In your dreams, when you eat
In your feelings
I'll make it hard, I'll make you stuffed
Just give me one good reason, baby
(Baby, baby, baby, baby, baby)

What a tool with your cool leather jacket
I got news for you, everybody has it
You're a fool, another quick habit
Eat your food, enjoy it while you have it
And while you chew it I want you to imagine
How I felt when I saw you grab him
You must've used magic to take it away

I let you hit me off, mhm
I won't do that again
And I know it's wrong, mhm
But now I want some revenge
Coming for your heart
Every beat, when you sleep
In your dreams, when you eat
In your feelings
I'll make it hard, I'll make you stuffed
Just give me one good reason, baby

First time that I ever met ya
I knew that you had paid attention
Follow me around in the right direction
Still do so focus on this message
While you listen, just think to yourself
How it feels when you need some help
'Cause now it's my turn to take it away
(Take it away, take it away, take it away)

I let you hit me off, mhm
I won't do that again
And I know it's wrong, mhm
But now I want some revenge
Coming for your heart
Every beat, when you sleep
In your dreams, when you eat
In your feelings
I'll make it hard, I'll make you stuff
Just give me one good reason baby

But I hide the truth, I do
The same reject as you
I do, yeah, yeah
