No Love

The Notwist

I try to be calm But it makes me tired I stare at my feet I'm what you once admired But you're not colder Than before Hi, it's me Remember the things we've seen? They stay with me And appear on my inner screen No love No love No love Say, there's no love No love No love No love Say, there's no love I try to be calm But it makes me tired I stare at my feet I'm what you once admired But you're not colder Than before Hi, it's me Remember the things we've seen? They stay with me And appear on my inner screen No love No love No love Say, there's no love No love No love No love Say, there's no love
