

This Room

The Notwist

No matter what we say
No matter what we think
We will never, will never leave this room

No matter what we say
No matter what we think
We will never, will never leave this room

What are we going to do 'bout this?
What are we going to do 'bout this?

No matter what we say
No matter what we think
We will never, will never leave this room

No matter what we say
No matter what we think
We will never, will never leave this room

What are we going to do 'bout this?
What are we going to do 'bout this?
