

I Gotta Get Over This

The Oak Ridge Boys

I gotta get over this, this hurt is lasting much too long
I gotta get over this, get back on the track where I belong

I gotta get over this, this hurt is lasting much too long
I gotta get over this, get back on the track where I belong
You said we were through and I said that I knew this was coming
on

I saw it in your eyes that look you can't disguise I've known y
ou much too long

We thought we'd try to leave it with a smile casue bitter teard
rops

Just ain't our style

You've been gone sometime but this feeling in my mind still see
ms to beat me down

Now's the time to fill this empty in my heart I'm tired of hang
in' 'round

I know our love will never be the same

I've got to pull my head out of this foolish game
