

No Way Out

The Oak Ridge Boys

Yes I really saw her,
What was I supposed to do?
Yes, she was my lover
Long before I knew you.

Love is a place you've been,
Ten million miles around.
When you fall a long way in,
Darling there's no way out.

Yes she's still as pretty,
Yes her eyes are that blue.
Yes there's still a trace there
Of the feeling we knew.

Love is a place you've been,
Ten million miles around.
When you fall a long way in,
Darling there's no way out.

Oh but how could you ever think
She could be anything more than old memories?
What about all our dreams
How can I make you be sure, sure about me,
Sure about these moments together
These nights that we've cried,
These roads to forever, these feelings inside?

When love is a place you've been,
Ten million miles around.
When you fall a long way in,
Darling there's no way out.
When you fall a long way in,
Darling there's no way out.
