

Seven Days

The Outfield

If ever I wanted something in my life
It's no surprise to see what I would do

If I had seven days
To rebuild my world again
I would still be loving you

If ever I needed someone in my life
It's no surprise to say I'd still want you

If I was seven days
Thousands of miles away
There'd be no one else but you

If your life
Was my life
We'd share a dream
You and I

If ever I needed something in my life
It's no surprise to see what I'd do

If I had seven days
To rebuild my world again

If your life
Was my life
We'd share a dream
You and I
If your life
Was my life
We'd share a dream
You and I

If I had seven days
If I had seven days
If I had seven days
