Slow Motion

The Outfield

If I said these words A thousand times Would you believe me? If I gave you my promise forever Would you deceive me? ' I don't care if the whole world outside Is one locomotion When I see you tonight We're gonna make love in slow motion If I told you I was a clown Would you believe me' If I gave you my shoulder to cry on Would you deceive me It can happen just once in a lifetime Accept every notion When I see you tonight We? re gonna make love in slow motion I would count every star in the sky To prove my devotion When I see you tonight We're gonna make love in slow motion If I was accused Without a crime Would you believe me? If I was innocent Time after time Would you deceive me? This can happen just once in a lifetime Accept every notion When I see you tonight We? re gonna make love in slow motion I would climb every mountain I'd sail every ocean When I see you tonight We're gonna make love in slow motion When I see you tonight We? re gonna make love in slow motion
