

I'll Be There

The Parlotones

I'll, I'll
Still beauty, colourful
These blossoms are up for bloom
One promise is just like a heart
They get broken, but I'll try my hardest

Even if your rich
Even if your poor
Every breath you breathe
I'll be there for you

Even if your strong
Even if your not
Every breath you breathe
I'll be there

Angellic, little princess,
I wanna wake up to your face every morning
Another lovesong, a silly lovesong
But its our song and it's forever

Even if your rich
Even if your poor
Every breath you breathe
I'll be there for you

Even if your strong
Even if your not
Every breath you breathe
I'll be there for you

This song is forever
This song is forever
This song is forever

I'll, I'll
I'll be there for you
I'll, I'll
I'll be there for you

Even if your rich
Even if your poor
Every breath you breathe
I'll be there for you

Even if your strong
Even if your not
Every breath you breathe
I'll be there for you

Even if your rich
Even if your poor
Every breath you breathe
I'll be there for you

Even if your strong
Even if your not

Every breath you breathe
I'll be there for you

This song is forever
This song is forever
This song is forever

This song is forever
This song is forever
This song is forever

I'll, I'll be
I'll, I'll be there
