

Pointing Fingers

The Parlotones

Hey boy, what you're doing, it isn't right
hey boy, is there any reason to pick a fight
Your streets filled with close houses and throwing stones
Hey boy are you throwing stones the other side?

Pointing fingers, try to shift the blame
Sympathy for the other side
We're all to blame our splinters are all the same
Sympathy for the other side

Hey girl can't u see, what u r doing is wrong
Hey girl don't u think it's time we got along
Yes, our eyes are filled with splinters, but so are yours
Hey girls are you pointing fingers at the other side?

Pointing fingers, try to shift the blame
Sympathy for the other side
We're all to blame our splinters are all the same
Sympathy for the other side

Hey boy, hey girl x3
Pointing fingers
We're all to blame, our splinters are all the same
Sympathy for he other side
