

Shake it Up

The Parlotones

If this is love
Then lovers don't stand a chance
If this is hope
The hopeful are merely dancing
If this is song
The songstress has got it all wrong

Elevate illuminate
Shake it up up up
rhapsody vicotry
Shake it up up up

platinum millennium
La lady luck
we'll never know what she tastes
unless we shake it up

Expose our emotions
Emotional embryo
And we will rattle
The shackles of our vertigo

woooo woooo

Elevate illuminate
Shake it up up up
rhapsody vicotry
Shake it up up up

We emtiomise
The maverick life
La lady luck
we'll never know what she tastes
unless we shake it up

We don't get it
We don't get it
So shake it up
