

Side Of The Moon

The Parlotones

Here I stand, here I stand,
An explosion of fire.
Here I am, here I am,
An ocean's desire.

Standing on the edge (3x)

I'm on the side of the moon
that always shines on you.
I can see the whole world from here,
all I ever do is stare at you.

I'm on the side
I'm on the side
I'm on the side of the moon
I'm on the side of the moon
that always shines on, shines on you.

I'm on the side of the moon
that always shines on you
I can see the whole world from here,
all I ever do is stare at you.

I'm on the side
I'm on the side
I'm on the side of the moon
I'm on the side of the moon
that always shines on, shines on you

I am lost, I am lost,
I don't want to be found.
Where I stand I can see you're safe and sound

Standing on the edge (3x)

I'm on the side of the moon
that always shines on you.
I can see the whole world from here,
all I ever do is stare at you.

I'm on the side
I'm on the side
I'm on the side of the moon
I'm on the side of the moon
that always shines on you.
I can see the whole world from here,
all I ever do is stare at you.

I'm on the side
I'm on the side
I'm on the side of the moon
I'm on the side of the moon
that always shines on, shines on you.

Shine on, shine on [X3]

Shines on you
