

We Just Wanna Be Loved

The Parlotones

Everybody wants somebody
Nobody wants a lonely life

Go and ask your creator
Ask your creator the meaning of life
The meaning of life

Through all those cryptic stories
The truth you will find somewhere inside
Somewhere deep inside

We just wanna be loved

Go and Tell those soldiers
Politicians they're just wasting time
Killing lives
We don't need no guns weapons just a loving gesture for the humankind
That's right, kind

We just wanna be loved

Listen mothers, fathers to your sons and daughters when they pray
You will hear them say

We just wanna be loved

Cupid please sprawy your arrows this way
Only love can save the day

We just wanna
We just wanna be loved
