

In My Head

The Psychedelic Furs

I came pulling all the stops
Putting rain on all of this
With the sirens in my sleep
And her sorrow at my kiss

I can't turn away
Hold a hand to when you pray
All her vanity and fate
Written on her crazy face

Here in my head
I hear you say
Here in my head
I hear you pray

Time is running through
Made by others I regret
Remember me I hear it said
Out of faces I forget

Hope you get up off your feet
Shake the dust out of your shoes
City lights and all my jazz
All my demonstrations too

Here in my head
I hear you say
Here in my head
I hear you pray

Time is what it's made
Made by others I regret
Remember me I hear it said
Out of faces I forget

Here in my head
I hear you say
Here in my head
I hear you pray

Here in my head
I hear you say
Here in my head
I hear you pray
