

# Die Too Young

The Quakes

Oh, oh  
You go out every night, till sunrise  
Coming home with your blood shot eyes, oh no, oh no  
Spending out, hanging out,  
So cool, you wanna shout  
Her high cargo and away you go  
Oh no, oh no

You live too fast  
You live too fast  
You live too fast  
You die too young, too young, too young

So cruising down the road to hell on wheels  
Shop top cap from head to heels, oh no, oh no

Fast cars, loose women get drunk and spin the next day  
I'm told you never do what you're told, oh no, oh no

You live too fast  
You live too fast  
You live too fast  
You die too young, too young, too young

Hey you, you're too young, go!

Too young  
Too young, too young, too young  
Let's rock

You live too fast  
You live too fast  
You live too fast  
You die too young, too young, too young
