

## Children

### The Rapture

Wait for me my only son  
I can't see you from above  
I'm so proud of what you've done  
Wait for me my only son

Children breathe  
Children bleed  
I can't see you and me

Wait for me before you die  
I can see love in your eyes  
As you watch me walk away  
I can see a mother's pain

Children breathe  
Children bleed  
I can't see you and me

Now you're gone and all that's left  
A piece of you I can't forget  
Soft and sweet little voice  
Can't forget we've got no choice

Children breathe  
Children bleed  
I can't see you and me
