

Ecstasy

The Raspberries

come on!
When I think of all your lovin' it makes me shiver
'Cause when I get home
Just wait 'til I get you alone
Ecstasy
When you touch me I'm in ecstasy
No one else could do the things you do
Let me please you too
Tonight
Ecstasy
When you kiss me I'm in ecstasy
No one else could make me feel this way
Tell me that you'll stay
Tonight
When you wrap your love around me and move so gently,
yeah
I feel it begin
Don't stop, I can feel my head spinning
Baby, baby, I just wanna make you
Feel the way I do
You got my backbone shakin'
And my poor heart's breakin' in two
Stay tonight
Stay tonight
