

Another Noise

The Raveonettes

1, 2

Let me get all your love
Gotta let you swipe up
Feel that I'm a different me
Still think that I want you

Still around, kicking me around
But you like to put in time
That's a dread, so, got none
Gotta keep to have my fun

So, you know how to rock with me
But it's time to me to leave
I thought it sound now, wanna be
Gotta matter how you feel

We can miss this torment scene
Pretty far away from me
Trip in your ride, that's okay
I guess I feel and love my way

We can go!
