

# Please You

The Raveonettes

I know I was tell the tale  
I know I was trying to work it out  
I know I was trying to get you

Come on now to me  
Is now our time

I know I was there to care for  
I know I was there by you  
I know I was something that change you

Come on now to me  
Is now our time

I know my heart is still in to your life  
I know my beatheart is better  
I know the reasons I'm just with you

Come on to me  
Is now our time  
Come on now to me  
Is now our time
