

Person With A Past

The Roches

Looking in the mirror
What do you see
From another era
A face, baby
A waste maybe
Of a chance never had
A history of
Romance gone bad
Who can be a lover?
How long can it last?
Anything but hover
Seems like moving too fast
Going undercover
With a person with a past
Seems like only yesterday
You were just a child
Until up irreversibly
All of this sadness piled
Mistakes when you were fighting
Your way out of your bag
Has loneliness moonlighting
Made of you a hag
Who can be a lover?
How long can it last?
Anything but hover
Seems like moving too fast
Going undercover
With a person with a past
You say you want to see me
My number you desire
You make it sound so easy
(Make it sound so easy)
Like slumbering in fire
I'm offering a warning
(Offering a warning)
Where you can put your trust
And thank me in the morning
When ashes turn to dust
Who can be a lover?
How long can it last?
Anything but hover
Seems like moving too fast
Going undercover
With a person with a past
(With a person with a past)
With a past
With a past
With a past
...
