

High Life Scenery

The Rocket Summer

You got everybody talking
You got everybody going
You got everybody acting crazy
I'm not gonna say you don't
You got everybody listening
You got everybody putting on a show
You got everybody acting crazy
I'm not gonna say you don't
You got it all wrong

You're so scene, listening,
You can feel but you won't sing
Anything you know you mean
Do you take it, do you take it seriously
Because seriously, this high life scenery
It makes me crazy

Hey, what do you say
I need some help, help me out boys
I'm not feelin' so good
Girl, I've got the feeling you're feeling something
If what you say is moving you
Everybody in here has got it goin' on and I can't compete with that
I'll take off all my clothes to the thrift store
And take it all, take it all back

You're so scene, listening
You can feel, but you won't sing
Anything you know you mean
Do you take it, do you take it seriously
Because seriously, this high life scenery
Is making me...

Hey, look, what do you see?
Take a look, take a look
You're looking at me
Singing and thinkin' that I'm about to scream (scream, scream)

You're so scene, listening
You can feel, but you won't sing
Anything you know you mean
Do you take it, do you take it seriously
Because seriously, this high life scenery
It makes me crazy.

You're so scene, listening
You can feel, but you won't sing
Anything you know you mean
Do you take it, do you take it seriously
Because seriously, this high life scenery
It makes me crazy.
