Promise Me

The Saturdays

We partyin' (We partyin') So here we are again I'm almost giving in I'm over-listening about Who you with or where you've been I got drunk with my friends A list from one to ten Are you the man that I need, I need? (No) If I was doing this Would you put up with this? Do what you're mama said Love or leave alone I'm gone Cos all you ever do You promise me me me the the world You promise never to let down a girl But now I know It's time to go Tonight I'm gonna go And party party go Without you I'm gonna go And party party go Without you You womanizing games Although you've say you've changed (No) I guess I always be your option not priority The best you never have One day you'll wish me back There won't be no one like me, me (No) If I was doing this Would you put up with this? Do what you're mama said Love or leave alone I'm gone Cos all you ever do You promise me me me the the world You promise never to let down a girl But now I know It's time to go Tonight I'm gonna go And party party go Without you I'm gonna go And party party go Without you

Promise this Promise that But you won't get me back You won't find me home alone Promise this Promise that But you won't get me back Someone will love what you don't You promise me me me the the world You promise never to let down a girl But now I know It's time to go Tonight I'm gonna go And party party go (I'm gone without you, yeah) Without you I'm gonna go And party party go

Without you
