

Always Gives Me More

The Saw Doctors

thought that i had everything, she always gives me more
there's no end to pleasing me, she always gives me more
you know i'm truly grateful, she always gives me more
an eye on mother nature, she always gives me more
sunshine in the morning, running wild and free
the crazy days of summer time, made for you and me
you know that i'm a believer, she always gives me more
it's from the heart of a dreamer, she always gives me more
i never meant to hurt no one, she always gives me more
now i find you in a song, she always gives me more
sunshine in the morning, running wild and free
the crazy days of summer time, made for you and me
thought that i had everything, she always gives me more
there's no end to pleasing me, she always gives me more
you know i'm truly grateful, she always gives me more
an eye on mother nature, she always gives me more
sunshine in the morning, running wild and free
the crazy days of summer time, made for you and me
sunshine in the morning, connemara breeze
the crazy days of summer time, made for you and me
she always gives me more.....
